SUMMARY

Frontend Developer specialising in React, Next.js, TypeScript and React Native, with 4 years of experience building responsive web applications, including 2+ years in a team at 7Forge LTD. Designed, built and launched Empowered2Play, a live platform for gaming tournaments and peer-to-peer football predictions. I turn designs into clean, reusable components, connect them to REST APIs and ship them on Vercel, with close attention to UI detail, responsive design, mobile-first thinking, and learning new tools quickly.

EXPERIENCE

Frontend Developer (React and React Native) — Aug 2024 - Present
7Forge LTD | Abuja, Nigeria

- Built and shipped responsive client websites and web apps with React, Next.js, TypeScript and Tailwind CSS, turning UI designs into reusable components that work across mobile, tablet and desktop.
- Integrated front-end features with REST APIs, handling data fetching, loading states and errors so users always see clear, up-to-date information.
- Tested and debugged features before release, fixing layout, performance and usability issues to keep products fast and reliable.
- Collaborated with the team using Git and GitHub and deployed updates on Vercel, delivering client projects on schedule.

Freelance Web Developer — 2022 - Present
Self-employed | Nigeria

- Designed, built and deployed responsive websites for local businesses, including a fashion brand in Surulere, Lagos, turning client requirements into mobile-friendly pages.
- Iterated on layouts and content from client feedback, using live preview deployments on Vercel to review changes quickly.
- Started during my Computer Science degree and continued alongside full-time work, handling client outreach and delivery end to end.

PROJECTS

Empowered2Play — empowered2play.com
Next.js, React, Tailwind CSS, REST APIs, Vercel

- Designed, built and launched a live platform where gamers and football fans compete head-to-head.
- Built the full tournament flow for CODM and eFootball: qualifiers, group stages and knockouts.
- Built the peer-to-peer football prediction experience; currently leading the platform's redesign.

Treda - Local Marketplace — In production
Marketplace, seller dashboards, secure online payments

- Building a marketplace web app where local businesses open a digital shop and reach buyers online.
- Building seller dashboards (listings, orders, performance) and buyer flows to discover, order and book locally.

SKILLS

Core: JavaScript (ES6+), TypeScript, HTML5, CSS3
Frameworks: React, Next.js, React Native
Styling and UI: Tailwind CSS, Responsive Design, UI/UX Design
